Dedication

We, the class of 1959, dedicate this volume of "The Flame" to our sponsor, Miss Adesta Koepfinger. She has guided us through our high school years and led us in our class activities. She occupies a place in all our hearts. To "our chief" we would like to say thank you.

Our first ingredients for making a Moon High graduate include our well equipped classrooms, a guiding faculty, and an open-minded student.

Our classes at Moon prepare us for the future. We gain knowledge in the fields of our choosing, and learn how to apply that knowledge to our everyday living. Above all we learn how to think and weigh facts. We shall always remember our teachers as men and women who did so much in preparing us for our future life.

"All Gaul is divided into three parts," the conversation of the Latin Sophs. "Sodium plus Water yields Sodium Hydroxide plus Hydrogen" murmur the juniors on the way to chem lab. "What did Wordsworth write?" comes from seniors approaching a lit test. "How fast can you type?" cry the business students.

All this work along with fun in classes is most important in making a graduate.

A Moon graduate would hardly be complete without some social activities in his curriculum. "Variety is the spice of life," and Moon certainly offers us a variety of social events. Whatever type of person you may be, there is a club for you.

The various organizations take turns sponsoring the Friday night dances. If you are one for a casual evening out with the kids, a Friday dance hits the spot.

The service clubs work hard all year at making school a better place to be. Banquets always are a big hit with an interesting and educational speaker. Of course the New Year's Eve Formal and the Prom round off our social events.

Social activities add that special seasoning to our "grad."

Athletics make up the extra topping to be added if desired. There is a sport at Moon for everyone interested.

Girls' intramurals give the girls a chance to run off some energy along with training them to be good sports. Fellows can get a good workout as well as pleasure from participating in any of the sports.

Behind every fellow, there is a girl. The cheerleaders faithfully and tirelessly work out routines to cheer the boys on to victory.

A topping of athletics adds good flavor to our Moon High graduate.

Seniors

Seated: A. Sacco, Miss Koepfinger. Standing: Trunick, Hughes, Tagliaferi.

As sophomores we became members of senior high. We were now eligible for membership in many school organizations. We chose our class rings, the ruby stone, and our flower, the white carnation. Our colors were black and green.

Junior year was our prom with decorations suggesting underwater atmosphere.

Senior year crept up on us fast. The production of "A Man Who Came To Dinner" started off the busy year. Senior dinner, review, pictures, banquet along with many others, all show very clearly the success achieved through the effort and determination of the class. Then finally came graduation!

Juniors

Sitting: Soderquist, Mr. McDaniel. Standing: Pennington, Santucci, Kern.

This is the class that took a back seat while the senior class held reins and took over the school. However, the class got right down to work and began to think seriously of all projects facing it, but in spite of hard jobs ahead, each one knew that this year was going to be a wonderful one. The junior assembly and magazine sale went over big. Still rarin' to go, they dug into the last job of the year, the Junior-Senior Prom.

Sophomores

This was certainly an active year for the "sophs". Class rings were chosen, along with colors and flower. Stationery sales were carried out to build up the treasury. They took great pride in their presentation of the New Year's Eve formal and spring carnival. Under the fine direction of Mr. Jack Miller, the class has made fine progress.

Last year's football seasons brought about our second successful victory over our rivals, Coraopolis.

The team finished the season with four wins and five losses. Coaches Gracey, Peters, and Ferraro are expecting greater success next year from their returning lettermen.

The junior varsity team, finishing undefeated, have great promise for continuing success in the varsity class.

1958 SPRING SPORTS

The coming of spring ushers in three important sports at Moon.

Baseball, the favorite sport of the nation, under the direction of Mr. Lebec, finished last year with a season of 6 wins and 4 losses. As in past years spring rains prevented much early practice for the boys on the field. The boys then had to practice in the gym. This season they are hoping for even better results.

Last year the track team finished with an undefeated, untied season. Mr. Merges, the coach, deserves much credit for the training of the boys. In both track and field events our boys amassed a total of 642 points in their nine wins.

With an equally impressive record of 7 wins and 3 losses, the golf team, under the coaching of Mr. Stull, is eagerly awaiting the coming season.

Intramurals

Miss King conducts an intramural program for seventh grade girls during club periods and upper class girls after school. Awards are made on the basis of participation.

Volleyball and basketball are two major sports in this program.

Many girls in addition to playing serve as referees, scorekeepers and timers.

The tumbling team practices with Miss King on alternate Thursdays.

The seventh grade girls enjoy soccer, and kick baseball proves very popular.

Our Prom

With the music of Bill Le Roy's orchestra beckoning, we entered "Underwater Fantasy". After entering through a diving bell, a paradise became ours for one short evening. The walls were adorned with murals and Neptune's castle. The sea horse in the center gleamed at the starry-eyed dancers, while the band played from a sunken ship. We all glowed with that intangible feeling of pride, that satisfaction of having created this huge success. We had decorated for two days and even enjoyed clean up the following day. So ended the gala affair, our Prom.

Our Classes

Our classes make up the main ingredients of a well rounded senior.

Future engineers and draftsmen get a start in mechanical drawing.

Spanish is the modern foreign language offered to fulfill the language requirements for the academic curriculum.

Physics is required of all senior scientifics and academics.

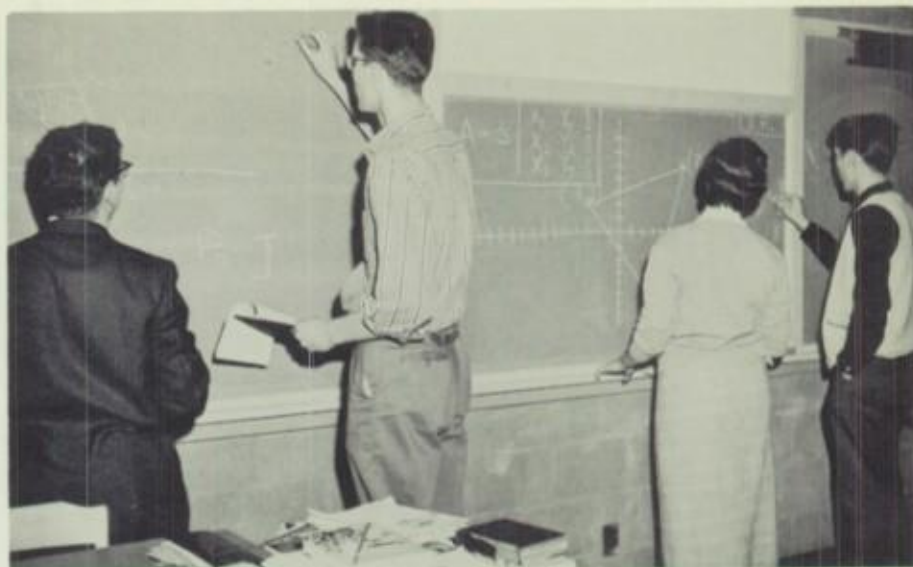

Ninth graders learn the intricacies of the slide rule in algebra I.

Latin is a required subject for almost all Freshmen.

All seventh graders have a two week course in library science.

In advanced mathematics the senior scientifics get their first taste of college math.

Oils, water colors, silk screen - name it and our elective art students do it.

Science is a part of seventh and eighth grade curriculum, but it goes full time in ninth grade general science.

This year social studies classes have combined geography and history for seventh and eighth grades.

Emphasis is placed on the reading of the better magazines in ninth grade English.

Our commercial department is second to none among the Moon High curricula.

Eighth graders accelerated in math begin the study of algebra.

Seniors in Problems of Democracy study national, state and local governments.

In plane geometry the sophomores learn the skills of reasoning.

The guidance department conducts a testing program to assist all students in curriculum and career choice.

In homemaking classes the girls learn by demonstration and by doing.

Chemistry is required of those juniors who are in college preparatory sections.

Biology, required of all sophomores, is the first of three senior high school science courses.

English classes are all-important, for we must learn to read, speak and write our own language.

Special Recognitions

JOAN CAPONECCHI AWARD

As a memorial to their classmate the class of 1953 established the Joan Caponecchi Award. The honor is bestowed upon the sophomore boy and girl who during their junior high years earned the most citizenship points. Mr. Lee on behalf of the class of '53 presented this award to Thomas Bedick and Inez Wiant. Runners-up were Raymond Colledge, John Leech, Nancy Keller and Marjorie Mathie.

GIRLS-OF-THE-MONTH

The Business and Professional Women's Club of Coraopolis honored stenographic senior girls of the local school districts. Each girl was the honored guest at a meeting of the club, who had asked the commercial and guidance departments to elect the girls to be honored. Constance Baun and Barbara Hetzer represented Moon High School.

GOOD CITIZEN

Seniors and faculty chose Margot Rudge as Moon High's 1959 Good Citizen on the qualities of dependability, service, leadership and patriotism. Sponsored by the Jacob Ferree Chapter of the Daughters of the American Revolution, Margot was eligible to compete in the contest to name the Good Citizen of Pennsylvania.

OUR SCIENCE EXPERT

Because of his superior ratings in the math and science fields, John Rolin was chosen by the faculty to represent Moon in the Science Experts Quiz on April 8, 1959. The quiz, which was televised and also broadcasted on the radio, was sponsored by the Buhl Planetarium, Westinghouse, and science teachers of the surrounding area.

EXCEPTIONALLY ABLE YOUTHS

Placing in the award group of the Able Youth Test which was taken by ten Moon seniors, Jane Alexander and Fred Tagliaferi received certificates for their outstanding abilities. The examinations were sponsored by the Allegheny County Civic Club.

HOMEMAKER

Betty Lipps was Moon's highest scorer on the annual Betty Crocker Homemaking Test given to senior girls throughout the nation. As a token of this achievement Mrs. McCormick presented to Betty the Betty Crocker medal.

OUR POET

Dr. J. A. Allard, our supervising principal, became a literary celebrity when "Gypsy in Verse," a collection of poems he had written over the years was published. The Moon Teachers Association honored Dr. Allard at a tea on February 4. At this time Mrs. Allard looked on while the author autographed his book. Mr. Brooks, Mrs. Tussey and Mr. Hawes were on hand to obtain the celebrity's autograph.

OUR PHOTOGRAPHER

To Mr. Fred Eckert and Strem Studios goes much of the credit for the success of our yearbook. "Freddie" gets his instruction from Editor's Jack and Marg.

THERAPISTS

The county office makes available many special part time services. This year Mrs. Leslie Spiegle and Mr. Harry Brooks, speech and hearing therapists respectively, have spent several hours each week at Moon High.

NEW TEACHERS

Mr. Samuel Rogel and Mr. Glenn Rauschenberger joined our faculty as members of the English department replacing Mr. Cotton and Mr. Siebert, who resigned at the end of the first semester. Mr. Rogel is a graduate of Clarion State Teachers College; Mr. Rauschenberger, Slippery Rock State Teachers College.

"Sizing up for Caps and Gowns"

THIS IS OUR LIFE

As we prepare to don caps and gowns for graduation, we remember that the Class of 1959 entered Moon High with a feeling of excitement that is typical of new seventh graders. With Mr. James Reed as our sponsor, we elected as class officers, Sue Ann Cashion, president; Margot Rudge, vice-president; Fred Tagliaferi, secretary; and Charles Popovic, treasurer.

Our eighth grade year brought a change not only in subjects, but schools as well. We were indeed proud to be a part of the new school atmosphere. Officers for this school term were Donna DiMeo, president; Richard Gilchrist, vice-president; Fred Tagliaferi, secretary; and Amy Sacco, treasurer.

Passing on to ninth grade, we earned our first title. As freshmen, we chose our curriculum for our remaining high school years. Still having Mr. Reed as our sponsor, we elected Amy Sacco to be our class president; Joan Kroboth, vice-president; Fred Tagliaferi, secretary; and "Buster" Trunick, treasurer.

Our sophomore year brought two new changes in class leadership. Miss Adesta Koepfinger became our new class sponsor, while Dorothy Glatz filled the post of vice-president. During one of our busiest years, we chose green and black to be our class colors, the green carnation as our class flower, and the red ruby for our class rings. Our main projects were selling stationery and sponsoring a girls' tag day and dance.

In our junior year, most of our activity was centered around "Underwater Fantasy," our prom. Our class rings finally arrived in October of this year. The vice-presidency again changed hands with Carol Gaydos now holding the position.

Finally, as seniors we reached the last plateau. The production of our play, "The Man Who Came To Dinner," our revue, "Anything Goes," and plans for commencement provided a full schedule. Dale Hughes took over the office of vice-president, with all the rest of the officers remaining the same. As our high school career ends, many of us are looking forward to college careers, while others make employment plans.

We, too, shall lay our tools aside
We, too, who scorn to wince or fail
Shall also heed the clarion call
And follow the familiar trail.

Fear not the journey to begin
Nor worry when the call shall be
To join the great, brave, sturdy throng
Magnificent the company.

A lot has happened in our first 50 years

Come take a look with us over the 50-year span since our beginnings in 1909. 123,990 passenger cars were built that year—3,297 trucks. Electric lights for automobiles came in the year before. The self-starter—3 years later.

Wherever automobiles traveled, the countryside rang with cries of "get a horse," "your trolley's off, mister," whenever luck went bad with a courageous motorist. A gas station was anything from a grocery store to a blacksmith shop. And a good car was of necessity a good "mudder."

In this fifty years—literally hundreds of names of automobiles have flashed across the horizon, enjoyed brief success, and disappeared.

Remember Ajax, Apperson, Case, Chandler, Cole, Duquesne, Earl, Kissel, Marmon, Ruggles, Saxon, Velie, Whippet? Memories—all but lost in this dynamic demanding half-century.

Rockwell-Standard was born with those in this vast industry who challenged the many who had "open mouths and closed minds." We have grown through these 50 years because we have shared in the vision and progress that have characterized the industry since men of great courage dreamed the dream of today's automotive miracle.

As we celebrate our half-century mark, and look forward with eagerness and optimism to our future, we view the achievements of the past with gratitude and no little humility.

50 years is a long time—but years need not necessarily mean age. When progress is the ideal, a business retains the vitality of youth—and moves forward aggressively with the years.

In management, in research, in engineering, in plant, in financial soundness, we are equipped to face the challenge of the next 50.
